

AMENDMENTS TO THE CLAIMS

The listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims

Claims 1-14 (canceled).

15. (Currently Amended) A communication apparatus, comprising:

a communication device for receiving an identification signal from an originating communication apparatus, the identification signal identifying the originating communication apparatus, and performing an output operation when the received identification signal from the originating communication apparatus coincides with a pre-stored identification signal, wherein

said output operation includes an operation of repeatedly printing a plurality of copies of an image data signal representing the entire document being received into a plurality of groups subsequent to the receipt of said identification signal on recording sheets, and

a process of bundling each group of copies one by one is performed after said output operation.

Claim 16 (Canceled)
